Subject: Pelican Point

Received a call from John Sather, he is no longer working for Pelican Point Rock Products. He was laid off as on Monday May 17.

I talked to Patrick Collins (Mt Nebo) who had been working on the latest submittal from them. Patrick stated that most of the NOI is completed but he is waiting on them to authorize an aerial survey for the map. As of yet they haven't done it.

I called and left a message for Justin Cozad to see what is being done.
